- Planning Board-1 Technology Place (ongoing sale issues)

Additional Notes

The Village received an Insurance Services Office grading for “Building Code Effectiveness” based on a survey of the Code Enforcement Office. The survey included a questionnaire, a review of job description, a review of the process to review plans and perform inspections, and an in-person meeting. The rating received is a 4 out of 10 (1 being the best), as compared to other municipalities. The Village had no rating prior to this. This grading can be used by insurance companies to assist them in rate setting. The Mayor was also emailed a copy of the report.
